# What is an NFT?

**An NFT (Non-Fungible Token) is like a rare 1 of 1 Autographed Memorabilia, in the digital world. Here's how they're similar:**

- **Uniqueness:** Both NFTs and Autographed Memorabilia are unique and one-of-a-kind. There is only one of them in the world, and no other item is exactly the same.
- **Ownership Proof:** Owning an NFT comes with a digital certificate on a blockchain, which proves that you are the sole owner of that digital item. Similarly, a rare Autographed Memorabilia is certified to show its authenticity and uniqueness.
- **Perks/Utility:** While some NFTs offer only digital artwork for collectors, our NFTs provide real-world value. In essence, when you purchase a Loco Loyal, you're not just acquiring a digital piece of art; you're obtaining a piece of art work that comes with perks. These include three free jerseys per year, annual match tickets, an exclusive invitation to our Discord community, and a comprehensive library of resources and tools about web 3.0, blockchain, cryptocurrency, and NFTs. But most importantly, you're owning a piece of history by having owning one of the limited 2,777 digital artworks that come with these yearly benefits.
- **Collectible Value:** NFTs and rare Autographed Memorabilia are both collected for their rarity and uniqueness. People often value them as collectibles, sometimes for their aesthetic appeal, their connection to a particular artist or character, or the potential for future value appreciation.

## 6. Convert Your Regular Money to Ethereum

Ethereum (ETH) is the digital currency you'll use to buy the NFT. Remember:

- There are extra costs like gas fees, network fees, and transaction fees. These are outside of the actual NFT price.
- If the NFT you want costs 0.15 ETH (or roughly \$279 USD), consider adding a bit more, say \$285-\$290 total. This accounts for possible changes in fees or Ethereum value, known as slippage.
- Currently, only Ethereum is accepted for payment.
